English

Barcelona Campus

What?

This course is designed for students who have satisfactory levels of English - or near satisfactory levels - but who would benefit from additional support to prepare them for their first semester of work at GBS Barcelona. It is also available to all other incoming students as a way of them preparing for the start of their programs.

The course consists of 16 hours of intensive academic English each week - Monday to Thursday - over 3 weeks, plus study skills and time management skills sessions with the Academic Director of GBS Barcelona.

There will also be sessions on Spanish/Catalan life and culture, involving trips around the city. Students will be introduced to the digital platforms we use here at the university, such as Google Classroom, Google Docs/Slides/Sheets, the Extranet and our e-library.

Additionally, students will be given assistance in finding accommodation, securing their *Empadronamiento* and NIE, and everything else required to allow them to begin the semester fully engaged and ready to go. The course provides individual care to each student to help them make a successful transition to life in Barcelona.

Includes

- Welcome lunch
- Intensive English language course
- Introduction to Spanish language and culture
- Study skills and time management skills sessions
- Cultural sessions
- Barcelona trips
- Introduction to and practice in digital platforms
