

MASTER'S DEGREE TOP-UP OPTIONS

Current Master's students at Geneva Business School have the opportunity during their program to participate in a top-up Degree Program at a UK university via our academic partner **Qualifi**.

Qualifi is an approved and regulated body in the UK and Geneva Business School is an approved Qualifi center. That means our students can access university degree qualifications in the UK while studying with Geneva Business School.

Geneva Business School Master's Students are eligible for the program once they have accumulated **45 ECTS** credits. Students can undertake the top-up Program either when their studies are complete and graduate with a dual degree or replace the final semester as a complement to their Geneva Business School studies (this will result in a single degree).
