

CREDIT TRANSFER POLICY

Geneva Business School (GBS) is committed to providing a transparent, fair, and academically rigorous process for evaluating and awarding transfer credits. This policy applies to all prospective and current students seeking credit recognition for coursework completed at external institutions, ensuring alignment with international quality standards and IACBE accreditation criteria.

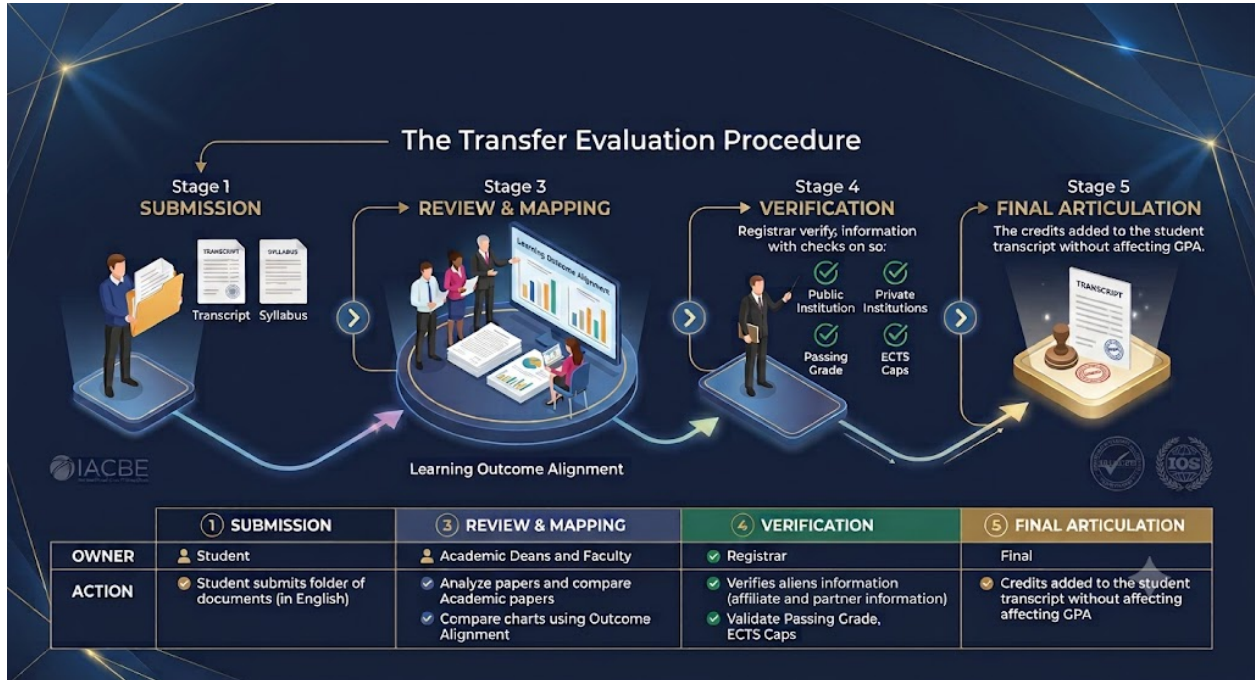

GBS evaluates and accepts academic transcripts and syllabi from both public and private higher education institutions globally. The core requirement for transfer viability is the verification of the institution's legitimacy and the academic rigor of the completed coursework.

Rather than enforcing rigid grading scale conversions—which vary significantly by institution and country—GBS evaluates transfer eligibility based on substantive alignment. Credits are considered for transfer under the following conditions:

- **Academic Performance:** The student must have obtained a passing grade (or local equivalent) at the sending institution.
- **Curriculum Mapping:** Credit recognition is determined by an institutional mapping process. The content, academic depth, and **learning outcomes** of the external course must align directly with the corresponding GBS program requirements.

To preserve the academic integrity and residency requirements of a Geneva Business School degree, the maximum transferable credit limits are strictly defined by program level:

Program Level	Maximum Transferable Credits	Residency Requirement at GBS
Bachelor's Degree	Up to 120 ECTS	Minimum 60 ECTS completed in residency
Master's Degree	Up to 30 ECTS	Remaining core and capstone completed in residency
